Princeagezinweke@gmail.com

Lagos 120120

## CAREER OBJECTIVE

I am committed to writing scalable, well-documented code. I enjoy working collaboratively, but I can also handle projects on my own. Excited about the prospect of working for a product-driven company

## EXPERIENCE

### FREELANCE WEB DEVELOPER AT (LITESTUDIOS)

November 2020–January 2021

- Enforced website standards for good SEO ranking, visual and design integrity.
- Verified front-end code functionality across browsers and platforms.
- Created clean, well-documented custom code and updates.
- built a database that helped the web application store automated bookings in a structured way.
- Recommended and implemented performance improvements.

### PROJECT - (GOOGLE.COM / G-SEARCH)

G-Search is a custom search engine that makes use of SSR (Server Side Rendering) functionality that Next.js offers. By routing all queries directly via Google's custom-search API, I was able to create an extremely quick, highly scalable, and powerful search querying engine.
